## North-Western Christian University.

The Charter of this Institution authorizes its Board of Directors to organize Colleges for Literature and Science, Law, Medicine, and a Normal School. The following Departments exhibit the course of study required for graduation in the colleges of Literature and Science, and Law. Additional departments will be organized, as the exigencies of the Institution may demand.

### I.—THE ENGLISH AND NORMAL SCHOOL.

PROF. J. R. CHALLENGER, A. M.

In this Department, the English Language and the Sciences which pertain to every day life, will receive the attention which their importance demands. The art of reading, speaking, and writing the language of our country must of necessity be one of the chief aims of a scholastic course; hence every effort will be made to render familiar all the branches of an English education, the principal of which are Spelling, Reading, Penmanship, Mental and Written Arithmetic, Descriptive and Physical Geography, History, English Grammar, Composition, Elocution, Drawing, Book-keeping, &c.

### II.—THE MATHEMATICAL DEPARTMENT.

PROF. G. W. HOSS, A. M.

The studies required for graduation in this Department extend over four years, if combined with the labor of other schools; but may be completed in three years by those who take only a Mathematical and Scientific course. The studies in this department will be Al-

gebra; Geometry; Trigonometry, Plane and Spherical; Surveying, Mensuration, Conic Sections, Analytical Geometry, Mechanics, Calculus, and Astronomy; also Civil Engineering, at the option of the student.

Special instruction will be secured to any who may pursue the study of Surveying with a practical object in view.

### III.—THE CLASSICAL DEPARTMENT.

PROF. A. R. BENTON, A. M.

The books read in this Department embrace an extensive course of study in Latin and Greek.

The course will comprise the reading of the following authors, commencing with Bullion's series of Grammars and Readers: In Latin, Cæsar's Commentaries, Sallust, Virgil, Cicero's Orations, Horace, Cicero de Amicitia, Tacitus, Cicero's Tusculan Disputations, Plautus. In Greek, Xenophon's Anabasis and Memorabilia, Herodotus, Homer's Iliad, Thucydides, Demosthenes, Sophocles, Greek and Roman Antiquities.

### IV.—THE DEPARTMENT OF NATURAL SCIENCE.

PROF. JOHN YOUNG, A. M.

To this Department belong Natural Philosophy, Chemistry, Physiology, Botany, Geology, and Mineralogy.

The means of instruction will be text-books, lectures, and experiments. The apparatus, with the aid of charts, is sufficiently complete to illustrate the sciences taught. The geological and mineralogical cabinet is extensive and well selected.

### V.—THE LAW DEPARTMENT.

PROF. J. YOUNG, ATTORNEY AT LAW.

The examination for graduation in this Department requires the study of the following authors: Walker's American Law, Blackstone's Commentaries, Kent's Commentaries, Stephen on Pleading, Greenleaf on Evidence, Story's Equity Jurisprudence, and Cooper's Justinian Code. Students may graduate in Law whenever the above course has been mastered.

## VI.—THE DEPARTMENT OF ETHICS AND INTELLECTUAL SCIENCE.

To this Department belong the Evidences of Revealed Religion and its Analogy to Nature, Moral Philosophy and Natural Theology.

For the present, Logic, Rhetoric, Intellectual Science, and Political Economy will be taught in this Department.

The charter of the Institution, requires the Bible to be taught as a class-book, but forbids the inculcation of sectarian or partisan dogmas; and to attain this end each student will be required to attend a Bible class every Monday morning.
